★★★★★
Fantastic service for a wonderful product. **Fantastic service.**
Will love to do business with them again.
Will love to do business with them again.

Meiding is the company that I have seen to receive customers and provide the highest quality of service. When I initiate a visit request, the salesman will arrange all the itinerary in advance and confirm with me whether there is any problem with the schedule, down to the purpose of the visit, the main content of the discussion, the number of visitors, whether the transportation needs to be picked up and booked a hotel, etc., even down to the minute, very careful! When we arrived at the industrial park, we were led to the office by a special person. For the first thing we saw when we entered the office was a big welcome sign, which made use feel especially friendly, and the salesman was also very enthusiastic and professional. To the workshop visit, the workshop is also very clean, neat, in addition to the assembly of pulling line, there are incoming quality inspection area, aging room, inspection area, maintenance area, etc., pulling line on each station are posted SOP flow sheet, they will also arrange a person to explain, so that I better understand the product production process, in order to ensure quality, each station will be self-inspection, before shipment will also arrange QC personnel for random inspection, for Our quality is guaranteed!"

For electronic products, I am most concerned about the quality of the battery, many factories' batteries are either false power or poor quality and unsafe, the batteries used by Meiding have formal qualifications, MSDS, UN38.8, empty shipping report are all complete, and there is a battery divider for testing, charge and discharge test, high and low temperature test, drop test, etc., which solves my worries from the root, Meiding is trusted partner!

2023 Household Light With Radio MD-099

NEW

Features:

- AM/FM/WB Radio
- SOS Alarm
- 2 Output Charging Ports
- 1W LED Flashlight
- Reading Lamb
